## GREAT SPEAKER AT STRATHCONA HALL SUNDAY

Mr. Sam Higginbottom to Speak to Students on Sunday Afternoon

MR. DAVIES WILL RENDER SOLOS

A Big Gathering is Expected to These Noted Men

A second "Father Damien" is perhaps the best way to describe the remarkable man who will speak at Strathcona Hall on Sunday afternoon at 2 p.m.

Last summer at Northfield, a consensus of opinion would have shown that by far the most popular lecturer at the conference was Mr. Higginbottom. However, sparsely filled the other class rooms may have been during study hours his was always full to overflowing.

He is a stout man with a healthy sunshiny sort of face and his platform manners are quite unconventional. One must keep a stiff upper lip while he is talking for he rings in the changes so quickly the emotions are apt to get the upper hand.

Quick kaleidoscope pictures are drawn of conditions in India as they were and are to-day. An intermingling of pathos and humor, comedy and tragedy, a blending of passion and quiet appeal make Mr. Higginbottom's story bright with life-interest.

Here is no "dry-as-dust-weep-a-little-brother" session, but a man who has faced life under the most terrible conditions, has gone into the leper houses of India and rescued the victims and through it all has kept his life bright and happy.

At Northfield, Mr. Higginbottom said he wanted to come to McGill because he had known Archie Grace, who used to be secretary of the Y.M.C.A. here years ago.

Mr. Maxine Davies, a member of the quartette of Parkside Church, professor of singing at the McGill Conservatorium, and one of the best known soloists in the city, has consented to sing at the meeting. This alone ought to ensure a large attendance of those who appreciate good music.

At the last meeting addressed by "Scotch John" McNeil, the Hall was practically filled. At this meeting with a man of Mr. Higginbottom's calibre to speak and with a man of Mr. Davies' reputation to sing there ought to be an overflow gathering.

## MEDICAL LIBRARY CENTRE OF INTEREST TO MED. STUDENTS

Gift of Books in the Library Come From All Over the World

"The history of the Library is the history of the Faculty," remarked the late Prof. Archibald Hall, of the Medical Library, long ago. During the intervening years there have been numerous occasions when the truth of this observation has been demonstrated. To-day the endeavors of the Faculty and the interests of the Library are so closely interwoven that the growth and vigor of one is reflected in the expansion and development of the other. It is interesting to observe in this connection how markedly this venerable institution has invoked the attention and thought of so many of the Alumni and persons connected with the University.

For many years Miss M. E. Charlton, a graduate of the Library Training School of Amherst College, now of the Academy of Medicine in Toronto, was Librarian.

During her long term of service she gathered together much valuable data and many interesting relics.

One of the most faithful contributors to the library is the esteemed Sir Wm. Osler, who repeatedly makes unique donations. The most recent token of Sir William's fresh memories of his Alma Mater is an interesting pen and ink sketch of the Medical School of the University of Pennsylvania, depicting the growth of that distinguished seat of learning from 1765 to the present. A unique feature of the gift is a chart of the professors, late which has, since its inception, been a learned one and to whose glory Wm. Osler contributed in no little degree. On the roll are the names of men famous in the world of Medicine as Benj. Rush-Wistar, Leidy, Osler, Piersol and Kelly. In the Professors' reading room hangs a new photograph of a crayon drawing of Dr. Osler by Sargent. This was a gift of Lady Osler's this summer.

One of the department's best friends is Dr. Casey Wood, of Chicago, who has donated many very rare volumes besides a considerable amount of money.

Another contributor is Dr. Andrew Macphail, who, with his usual generosity, loaned over one hundred volumes last year. Recent contributions include the gift from Dr. Birkett—Emil Abder Halden's "Defensive Fermentations of the Animal Organisms," the most recent work in this department of Medicine; two ancient volumes from Dr. Blackader and a modern system of surgery by Choyle, from Dr. Carrow.

Recently, several changes in the personnel and in the system have been made. The self-changing system has been discontinued, the University Library method replacing it. Dr. Birkett, who, up to the time of his appointment as Dean of the Faculty, was honorary Librarian, still retains a very vital interest in the Library, and his practical experience and judgment are of inestimable value to the institution.

Dr. Philip Burnett is acting assistant honorary Librarian in the stead of Dr. C. F. Wylie, who is at the front. The Librarian is Miss Jean Cameron who was trained in Library Method at the Drexel Library School in Philadelphia, who, with her assistant, Miss Isabel Ross, formerly in the Redpath Library, has re-arranged the card catalogue alphabetically for subjects and titles.

## BASKETBALL AT THE R.V.C.

Schedule of Inter-year Matches Arranged

Although the Association has thought it wise to withdraw from the Montreal Basketball League, keen interest is being shown in the inter-year matches. Practices have been arranged and everyone is urged to attend these.

The following rules concerning practices have been drawn up. Each player must have practised at least twice before she can take part in a match.

The only exception to this rule is in the case of those who have been playing tennis lately, who must practice at least once.

The following schedule of inter-year matches has been arranged:

Wed., Nov. 11th—Seniors vs. Juniors.

Wed., Nov. 18th—Sophomores vs. Freshies.

Wed., Nov. 25th—Seniors vs. Sophs. Jun. vs. Freshies.

Wed., Dec. 2nd—Seniors vs. Fresh. Jun. vs. Sophs.

Team.

At a meeting of the Union House Committee it was decided to allow members of the various class football teams to use for dressing the room adjoining the one used by the First Team.

Special arrangements are being made to have "cozy" Dolan on hand after the games. The showers will be open and towels may be obtained from the janitor. Managers of class teams are requested to see that the dressing-rooms are left in good condition, as they will be held responsible for any irregularities.

The English Billiard Tournament will take place at an early date. Entry lists will open shortly, and well-known habitués of the billiard room have been chosen to decide handicaps. The three English billiard tables have been in great demand of late, and prospects seem good for some close games.

## MR. S. HIGGINBOTTOM TO ADDRESS STUDENT VOLUNTEER BAND

Popular Missionary is to Lecture to those Interested in Work in the Foreign Field

On Sunday morning at ten o'clock Mr. Sam Higginbottom, who is coming to McGill to speak to the Student Volunteer Band in Room "B," Strathcona Hall. As this will be an open meeting, all those who are at all interested in missions are cordially invited to attend.

The Student Volunteer Band at McGill is a branch of an international organization which has as its object the enlistment of college graduates for foreign service. Active membership is limited to those students who purpose definitely to go to the mission field. It was to the quadrennial convention of the Student Volunteer Movement held in Kansas City last New Year's, that McGill sent sixteen delegates. The Band here meets every Sunday morning at ten o'clock, and anyone interested should communicate with the president, Mr. Wilbur Lowry, B.A., Med. '16, or the secretary, Mr. John Copeland, President of the Union House. However, whether members or not, are invited to hear Mr. Higginbottom next Sunday morning.

## BY THE WAY.

It was just 50 years ago yesterday that the first lecture of the Montreal Medical Institute was given. This may be regarded as the practical founding of McGill University inasmuch as the Institute developed into the McGill Medical College, which was the first faculty of the University.

## Notices

B. W. and F. CLUB. There will be a meeting of the above club to-day in the Union at 5.00 p.m. Important business. The revision of the constitution will be discussed.

HARRIER RUN. The Harriers will hold their regular Friday run from the Shack at 5 p.m. to-day.

CERCLE FRANCAIS. Il y aura une reunion du Cercle Francais le lundi soir, 2 novembre. Le lieu et l'heure seront publies le plus tot possible et tous les membres sont instamment priés d'y assister.

MACCABEAN CIRCLE. The next meeting of this circle will take place on November 1st at 2.30 p.m. at the Royal Arcanum Rooms, 92, Union Ave. All members are requested to attend as an interesting programme has been arranged.

R.V.C. '15. The class of R.V.C. '15 will hold an important meeting to-day (Friday) at one o'clock in Room 12. As the hour for having the class picture taken is to be considered, it is essential that each senior come with her timetable, or, if this be impossible, send it by a friend.

phia, who, with her assistant, Miss Isabel Ross, formerly in the Redpath Library, has re-arranged the card catalogue alphabetically for subjects and titles.

## COUNCIL MET LAST EVENING

New By-laws Were Submitted But Were Left Over Until Next Meeting

COUNCIL DISCUSS MANY QUESTIONS

Lockers Will Be Provided For Second Football Team

The Students' Council met last night. New by-laws, covering the meetings, etc., of the Council were submitted, but they were left over until next meeting. The question of the Literary and Debating Clubs' estimate was considered. It was decided to accept it with slight exceptions. The estimate of the Boxing and Wrestling Club was passed. Lockers will be provided for the second football team.

The question of the right of the Union to charge a fee to clubs having for membership the entire undergraduate body was raised. The Council moved that this matter be brought before the House Committee of the Union, basing their contention on section 3, which reads as follows: "The object of the Union shall be to serve as a social centre for all students and members of the University, as a place of wholesome amusements and recreation, and as the headquarters of the various societies and clubs connected with the University." President Mathewson was then empowered to appoint a committee to look into the constitution of the Athletic Association, which has recently been overhauled by the Executive, and which appears in this issue.

Mr. Lamb asked, on behalf of some students, if the Intercollegiate Track Meet was properly advertised. It was stated that the event was advertised in all the daily papers. Mr. C. J. Stewart was appointed manager of the hockey club.

SPECIAL RATE. A special railway rate of \$10.00 has been secured for students desiring to attend the McGill-Varsity game at Toronto on November 7. Those who intend applying for the reduced rate are asked to hand their names in to Mr. Melville at the McGill Union.

## FRESHMEN-SOPHOMORE SMOKER AT UNION WAS A SUCCESS

Enjoyable Evening Spent by Many Last Night at the Annual Smoker

The annual Freshman-Sophomore smoker, which was held at the Union last night, was by far the most successful of its kind since their inauguration two years ago. Songs, dances, monologues, sketches, and lastly refreshments were among the things the Freshies treated the Sophs to last night.

The programme opened with a piano solo, by Cortello, followed by a song, by Dick, who later in the evening showed himself an entertainer of no mean repute by dancing a horn-pipe.

Dr. Barnes, the originator of the smokers among Freshmen and Sophs, gave an interesting lantern talk. Mr. Jimmie Rice entertained the fellows with songs and jokes while Messrs. Work and Foster rendered popular instrumental numbers. Dr. Barnes and Prof. Sullivan followed with short addresses.

In the meantime pipes and tobacco were passed around and the smokers indulged in by the Arts' students who had joined the gathering and who helped themselves on every occasion to the refreshments—this they were allowed to do on account of their hungry half-starved looks.

The McGill orchestra after their rehearsal entertained the meeting with a few selections which were loudly applauded.

Mr. W. R. Rutherford, President of Science '18, in a short speech thanked the fellows for their assistance in making the smoker a success. The President of Science '17 replied saying that he hoped Science '18 and '17 would be as one in the coming year. The meeting was brought to a close by singing the national anthem, cheering one another and all together cheering Dr. Barnes, the students' friend.

## Futurities

TO-DAY.

12.00 o'clock—Football—Med. '18 and '19.

1 o'clock—R.V.C. '15.

5.15 o'clock—Basketball at Y.M.C.A.

5.00 o'clock—Meeting of the Boxing, Wrestling and Fencing Club in Music Room of the Union.

5.00 o'clock—Harrier Run.

TO-MORROW.

Rifle Club and C.O.T.C. shoot at Pointe aux Trembles.

10.00 o'clock—Football—Arts '17 and '18.

11.30 o'clock—Football—Arts '15 and '16.

1.30 o'clock—Football—Science '15 and '16.

3 to 4 o'clock—Basketball at Y.M.C.A.

4 to 6 o'clock—Swimming at Y.M.C.A.

5 to 6 o'clock—Basketball at Y.M.C.A.

6.15 o'clock—Polo practice at Y.M.C.A.

SUNDAY.

2.30 o'clock—Maccabean Circle.

3 o'clock—Sam. Higginbottom at Strathcona Hall.

9 o'clock—Sunday sing at Strathcona Hall.

MONDAY.

12.15 o'clock—Football—Med. '14 and '15.

Le Cercle Francais.

## QUALITY FURS

You look for most a lifetime of service in the purchase of furs—to have that service you must have quality in the furs themselves and quality in the workmanship.

You select "Fairweathers" furs with a quality guarantee and the service and satisfaction of wearing them is enhanced because of the advanced styles we show. Just now is the best time to select, for fine furs never sold for so little money.

Special display this week of Fur Coats in Persian Lamb, Broadtail, Mink, Hudson Seal, Mole, French Coney and other moderately priced furs. We invite inspection and comparison.

Write for our new 1914-1915 Catalogue and Style Book.

## A Fine Character

Most of us have been deeply interested in the troubles which have arisen in South Africa due to the present European war, and we all must have noticed the predominance of the old Boer general, Botha, who has stood foursquare to all the winds of rebellion that have blown.

It is not so very long ago that this man fought, and fought well, against the British, and in his loyal and devoted attitude, we can see a magnificent exposition of character, as well as a wonderful tribute to the Colonial Policy of Downing Street.

By his acts, he shows what a man he is, and all he does is typical of the great African Veldt in its broadness and expanse. As a fighter, he was admired and respected by friend and foe; as a statesman, he is showing, to a far greater degree than before, his superb personality and keenness of vision. Realizing the changed conditions from twelve or thirteen years ago, he has given himself up to the policy that can only benefit and advance, and which can only be carried out by such a man as he. Have we not in him an example of an unselfish and expanding character that has not been seen for many a day, and does it not bring a thrill to our hearts when we hear of his deeds amidst surroundings of the most difficult nature? Truly so! and he can be numbered among the most noted men of the day.

## The Canadian Club

What has happened to the Canadian Club this year? Have all its officers left college? Why, there could not be a finer time for it to be having a few rousing meetings.

Perhaps its officers have been unable to get speakers, and if so, we apologise for this article. But it is more than likely that they have never given it a thought. The Montreal Canadian Club has been able to get a number of very fine men to address its members, and it seems as if we here had let all our chances go by.

But there is a lot of time yet, and we feel sure that a talk by some competent gentleman on the topics of the day (especially the matter of recruiting) would lead to some very fruitful results. So stir yourselves up to your responsibilities, you officers, and remember you were elected to do something, and should be eagerly grasping the many opportunities that present themselves at the present time.

## 1824-1914

The slogan "Old McGill" is fast becoming actual as well as apparent for this venerable community is tripping off the milestones at a fairly respectable rate. As noted elsewhere it is now some ninety years since Wm. Robertson, Wm. Caldwell, Andrew Holmes, John Stephenson and H. P. Loedel inaugurated the Montreal Medical Institute of which McGill Medical Faculty is the direct outcome and continuance.

It is a far peep from Dean Robertson to Dean Birkett, a distance which no one of the present generation can span in his experience. From the days of the "leech" and "blood letting" to the introduction of "anaesthesia" down to "asepsis" and "tissue transplanting" is a spirited leap and from the little room on St. James street to the old medical building, now gone, to the present matchless structure, is sweeping panorama — one furnishing stimulation for copious speculation.

Anyhow, we all glory in the achievement.

## McGill Twenty-Four Months Ago

From The McGill Daily of Wednesday, Oct. 30, 1912

That the Freshman-Sophomore soccer team, which was defeated by the old time rush which often resulted in serious accidents and the inauguration of a new era of special entertainment was one of the opening remarks made by Mr. H. Morgan, President of the Arts Undergraduates' Society, who acted as chairman at the meeting. Dr. Barnes was present, and delivered a most interesting lecture on "Icebergs," illustrated by means of slides.

The first of the weekly competitions which are being held by the Rifle Club, this year, took place last Saturday. Although bad weather prevailed, the competition, on the whole, was a decided success. There were five men who made over 50. They were:

Atkinson ..... 99  
Hollinshead ..... 95  
Golder ..... 92  
Bone ..... 92  
Robertson ..... 92

The final week of training for the members of the Inter-collegiate team is now at hand, and the boys are still sticking faithfully to it. McGill will be represented this year by a sturdy bunch. Russell is having some slight trouble with his foot, and is resting after a few hard months on the track. Walsh, the captain of the McGill team this year, is fast coming to his own. Hague is running well and good reports are coming in from White, of Macdonald College. Struthers, Scott and Wall can also be depended on to give a good account of themselves.

Nichols: "Why don't you get a new suit made? No one else has a new one." "What for?" "What for?" "I haven't given you anything to eat." "No one knows it better than me. But I'm a grudge. That dog of yours has been biting a piece out of my leg. I want to get him some sewing." — Washington Star.

"Lady," said Pudding Pete, "would you mind letting me have some more of that old time rush which often resulted in serious accidents and the inauguration of a new era of special entertainment was one of the opening remarks made by Mr. H. Morgan, President of the Arts Undergraduates' Society, who acted as chairman at the meeting. Dr. Barnes was present, and delivered a most interesting lecture on 'Icebergs,' illustrated by means of slides.

## Newslets of McGill Graduates In Varied Activities in Life

In Marriage, Science, Business and Professional Life They Take Their Place and Uphold the Traditions of Old McGill

The great and almost unexpected victory of the Track Team last Friday calls to mind an equally brilliant victory in 1911, also at the M.A.A.A. On that occasion McGill beat Varsity by the score of 68 to 41, the first success since 1906 and the last until this year. It may interest our subscribers to read a few jottings about some of the members of the team of 1906.

First and foremost comes Ken. Dowie, B.Sc. '10, B. Arch. '12, who captained the team and was one of the finest athletes ever turned out by McGill. He still holds the Intercollegiate record for the 120 yds. hurdles with a time of 17 secs. This mark does not give a just estimate of his abilities, however, for in 1911 he covered the distance in 16 1/5 secs., but was not fortunate enough to tip over one or two of the hurdles. On the same occasion he came out on top in the long jump.

After graduating, Dowie became general secretary of the McGill Y.M.C.A., which office he held for a year. Finally, in August, 1913, Ken left to take up the work for which he had been preparing for several years. He went out to Formosa to engage in industrial Y.M.C.A. missionary work under the Canadian Presbyterian Church.

Though so far afield Ken is still a devotee of athletics and still takes a keen interest in doing at McGill. After grinding hard for a year at Chinese in Formosa, Dowie has been shipped off to Tokyo to learn Japanese. Recently a letter was received from him and a few extracts will show how he is getting on. "Is the 'Daily' still in business? If so, I should like to know how to subscribe."

"I never lived in a Japanese house, did you? It wouldn't worry you so much because you aren't very tall. But every time I get about the door and passage heights, I get a crack in the head to remind me. And all that keeps out the wintry blast is a wall made of sliding screens, one thickness of paper, put on slits of wood; if you lean against the wall carefully, you fall out of the house. You sleep on the floor, which is covered with matting, and have to leave your shoes in the front porch, and go

around in your socks. But a Japanese bath is a great trial for a man with long legs. There's no water on tap, so you splash yourself with water from a bucket, and when you are clean, you begin to fold up like a safety pin, with your knees jammed against your shoulders, and squeeze till you get inside of a tiny tub of hot water—so hot that you get cooked like a lobster.

An American Presbyterian, called Smythe, and I are living like this to save foreign grub, and have a Japanese student who lives with us to give us practice in conversation. Smythe is A.I. he and I pull well together."

Another of the fine performers at the Meet in 1911 was Bill Murray, at that time editor of the "McGill Daily." He won the mile in fast time after a most gruelling race, falling over the finishing tape half dead. Of Bill's performances at college, little need be told for they have already appeared in the "Daily" this year.

After leaving college, Murray engaged for some months in important editorial work, travelling extensively in the performance of his duties and touching such widely separated regions as South America and Russia. In 1912 he had the honour of being elected as McGill's Rhodes Scholar. In the few months during which he was at Oxford he took an active part in athletics, chiefly barrier racing, and also won in military training. This latter stood him in good stead, for at the outbreak of the war he immediately volunteered and was sent to the front. His service did not last long, however, for after a short time he was wounded while engaged in the important task of bearing dispatches.

When last heard from Bill Murray was getting along favourably in a London hospital.

Another of the famous squad was R. E. L. Hollinshead, Sc. '13. He was one of the finest sprinters turned out by McGill in the last few years, taking first place in both the 100 yds. and 220 yds., and third place in the hurdles.

For some time he was engaged in work for Ross & Macfarlane, architects in the city, but like Murray, he too volunteered for active service and went over with the first contingent.

Still another Rhodes Scholar is to be found in the roll of the famous team, this time in the person of Harry Logan, Arts '08, who spent three years at Oxford as the representative of British Columbia.

In his return from England, Logan studied at the Presbyterian College and it was while there that he ran for the track team, making the redoubtable Mel. Brock go very fast to beat him out in the half mile.

Harry Logan has since gone West and is now assistant-professor of classics at McGill, British Columbia. He still seems to retain his active interest in student life and affairs for he has been elected faculty representative of the Alma Mater Society, and Hon. President of the Y.M.C.A.

Spurg. MacKenzie, Arts '13, was the champion jumper of the team, taking first place in the high jump. He was to have come back to Medicine this year and had been elected as president of the Track Club, but the lure of a good position proved too strong for him. He is now with the Fraser Lumber Co., Plaster Rock, N.B.

Other men on the team included Fred. Dakin, Sc. '10, who ran second in the 440 and who is now doing contracting work at Sherbrooke, Que. In the firm of Loomis & Dakin; Allen Walsh, Arts '13, the three-miler, who is instructing a class of boys out in Westmount; and "Cakie" Smith, Arts '12, also engaged in teaching out West.

Last, but not least, comes "Big Mac," McDougall, Sc. '14, who for three or four years generally cleared up on all three weight events. In spite of several attempts we have been unable to discover his whereabouts, and can only hope that he, like the others, is prospering in the line of work that he has chosen.

## Revision of Athletic Constitution And Rules Concerning Badges

Students are requested to become familiar with the proposed changes before the Special Athletic Meeting of Nov. 12th, 1914.

### THE MCGILL ATHLETIC ASSOCIATION.

Montreal, October 7th, 1914.

### NOTICE IN ACCORDANCE WITH ARTICLE NINE OF THE CONSTITUTION OF THE MCGILL UNIVERSITY ATHLETIC ASSOCIATION.

Proposed amendments to the Regulations, Constitution, By-laws and Agreements governing Athletics in McGill University, pages 3-14. Rules governing the use of McGill Badges, pages 15-20. To be taken up at the Special Meeting of the Athletic Association, November 12, 1914.

### GENERAL RELATIONS OF THE ATHLETIC COMMITTEES.

#### Article I.

The Athletics Committee of Corporation.

1. This Committee has vested in it the ultimate authority and power of supervision in all matters affecting Athletics in the University and control of the grounds of the University.

2. Inasmuch as also under the Constitution of the Students' Society the fees collectable from Students are to be turned over to the Council for Expenditure in the interests of the Students, it will be the duty of the Athletics Committee of Corporation to have presented to it, at such times as it may require, statements of all receipts and expenditures in connection with Athletics.

3. The Students' Council will, in accordance with the foregoing, present a statement of receipts and expenditures of all Athletic monies since the previous meeting and up to the date of the meeting.

4. This Committee shall have submitted to it a report of all meetings of the Athletic Association, and shall have power to sanction, reject or amend all resolutions of that Committee regarding the issuance of tickets, the passing of medical examinations, the report from captains of clubs in regard to conduct of teams, the approval of constitutions of clubs, alliances with outside bodies and applications from clubs for permission to play against such outside bodies. The committee shall also have the final decision regarding the hours at which any club shall use the ground, and the disqualification or re-instatement of any student.

#### Article II.

The Students' Council.

1. All fees collected from the Students for Athletic purposes shall be handed over to the Students' Council, with the exception of that portion, as may be set aside for the upkeep of the grounds.

2. The Students' Council shall present an up-to-date statement of all receipts and expenditures of Athletic monies to the Athletics Committee of Corporation at the monthly meetings of that body.

3. The Students' Council shall make or authorize all necessary contracts or purchases upon presentation of a proper requisition from the club concerned, shall have power to employ such servants and assistants, as it may think fit, and shall apportion to each club, such annual grant as it may deem necessary for the upkeep of the grounds.

4. The Students' Council shall not be liable for damage done to the grounds by outside clubs, having permission to use the said grounds.

#### Article III.

The Athletic Association.

1. The Executive of the Athletic Association shall have the control and management of all Athletic affairs, subject to the approval of the Athletics Committee of Corporation or the Students' Council, as the case may be.

2. It shall pass all applications for McGill badges subject to the rules governing the wearing of them.

3. It shall recommend what hours shall be granted to each club to use the grounds, shall decide all cases of disqualification or re-instatement of any student, and shall approve all constitutions and amendments thereof of the affiliated clubs.

4. It shall see that all constitutions are being enforced, and that Athletic affairs are being conducted satisfactorily.

5. It shall recommend to the Athletics Committee of Corporation the course

it considers best with regard to applications from clubs to play against outside teams.

6. It shall grant permission to students to play with outside teams, if it thinks fit.

7. It shall appoint representatives to the meetings of the C. I. A. U.

8. The Minutes Book of the Athletic Association shall be placed in the hands of the Secretary of the Students' Council after each meeting of the Athletic Association. The Secretary of the Students' Council shall make two copies of the minutes of the last meeting, one to be retained by the Students' Council, the other to be given to the President of the Athletic Association for presentation to the Athletics Committee of Corporation.

The Athletics Committee of Corporation.

1. The management of the College grounds and of the out-door Athletics and sports is under the control of the Athletics Committee of Corporation.

2. The Committee is responsible for the general maintenance of all University grounds and retains the ultimate authority and power of supervision in all matters affecting Athletics in the University.

3. The following extracts are made from the rules and regulations of the Committee, for the guidance of the members of the University, and of several Athletic clubs and associations which are from time to time permitted to use the grounds.

a. During the summer season the Sherbrooke street gates shall be closed between 10 p.m. and 1 a.m. every day, and the University and McTavish street gates between 6 p.m. and 7 a.m. on week days and the whole day on Sunday.

b. Such persons as are entitled to use the grounds shall be provided with tickets each year. These tickets entitled to tickets are the members of the University and prominent benefactors, and the families of Governors and Professors.

c. The several clubs may be permitted to issue special tickets, entitling the holders to admission to the grounds for the purpose of viewing matches, or for other special occasions of public interest. All students desirous of taking part in Football matches, or otherwise engaged in visiting Athletic contests, must pass a medical examination, to be held under the direction of the Medical Director of Physical Education. A complete record of all such examinations shall be kept by the Director or some other officer appointed by the Committee.

d. The Managers and Captains of clubs, or other responsible executive officers are required to insist upon the strict observance of the rule in regard to medical examination, and all clubs must submit their regulations, rules, and by-laws, and any changes in the same, for the approval of the Committee.

e. All clubs must submit their regulations, rules, and by-laws, and any changes in the same, for the approval of the Committee.

f. Clubs must not engage in matches with outside clubs except with the approval of the Committee.

g. The Athletic Association must submit its programme for each year for the approval of the Committee.

h. All students in good standing who are taking in a course of study held to be sufficient by a special Committee of the Faculty in which they are enrolled, shall be allowed to take in Athletics, subject, however, to the general regulations regarding medical examination.

i. Suspension from Lectures for any cause, or absence from more than one-third of the total number of lectures given in any course as shown by the monthly reports furnished to the Dean of each Faculty by the several Professors and Lecturers, shall be considered as sufficient ground to disqualify a student for engaging in Athletic contests.

j. None but undergraduates or post graduate students shall be permitted to take part in any athletic contest other than the regularly scheduled intercollegiate series, and further, undergraduates shall not be eligible for any such non-intercollegiate series if they have more than two conditions against them.

k. During the session, and including the Christmas holidays, students must not take part in any athletic contest

held beyond the immediate vicinity of Montreal unless they first obtain the approval of the Athletic Association of the University, and having obtained such approval, the written authorization of the Secretary of the Athletics Committee of Corporation.

l. Should any student take part in any athletic contest not having been sanctioned as above, or who is not personally qualified under the regulations, such student shall, with the approval of Corporation, be requested to withdraw from the University.

m. All students of the University are required to pay a fee of three (\$3.00) dollars. (This fee is included in the seasonal or universal fees). The amount so paid is handed over to the Students' Council, less about \$300, which is expended in the upkeep of the grounds in connection with Athletics, and is by this body expended in the interests of the Students' affairs.

n. The amount derived as grounds and athletic fees from the Students of the Royal Victoria College is placed at the disposal of the Committee in charge of the grounds, for expenditure in the interests of women-students.

o. The annual sports of the University are held in October. The day is observed as a holiday.

#### Rules Regarding the Medical Examination of Students.

a. The Medical Director of Physical Education will have notices posted at the beginning of each session in all buildings, and on the Athletic notice board containing the rules governing the Medical Examination of students taking part in Athletics, and the times at which they may present themselves for such examination. These examinations will be made every day during the first month of the college session.

b. A list of those examined and found fit to take part in Athletics shall be sent daily to the President of the Athletic Association.

c. The President of the Athletic Association shall grant leave to teams desiring the use of the grounds for any game on condition only that the list of players taking part in such a game shall contain no name which is not mentioned on the Medical Director's list.

d. It shall be the duty of the managers of the various clubs who are about to compete in any Athletic contest, to submit to the President of the Athletic Association a complete list of the possible competitors in such contest. These names must be submitted at least one day before the contest occurs, otherwise such games may not count toward qualification for intercollegiate.

e. The Groundsman must report to the President of the Athletic Association in regard to all teams taking part in games on the Campus.

f. The Groundsman shall be responsible, under the instructions of the President of the Hockey Club, for those playing Hockey on the Campus Rink, and the President of the Hockey Club shall be responsible for those who play on rinks other than the Campus Rink.

g. No student shall be permitted to participate in any form of competitive athletics unless having been previously examined during that session, under penalty of forfeiting any insignia that he may have won, and of being barred from participation in all University athletics until reinstated by the Executive of the Athletics Association, and a two-thirds vote shall be necessary for such reinstatement.

h. It is the business of the President of the Athletic Association to see that these rules are enforced.

#### CONSTITUTION OF THE MCGILL UNIVERSITY ATHLETIC ASSOCIATION.

##### Article I.

NAME AND OBJECT.

The name of this association shall be the "McGill University Athletic Association," and its object shall be the encouragement and supervision of Athletic sports and games and the promotion of Physical Fitness among the students of the University.

##### Article II.

Colors, Badges, Sweaters, Suits, Uniforms.

1. Badge. The Badge of the Association shall consist of the McGill University shield in silver, crossed diagonally down from left to right by the colors, enameled, with the letters MCG.

## SECONDS GIVEN HARD PRACTICE

"Sinc" Has Effective Way of  
Dealing with Fellows who  
Miss Tackles in Open  
Field

The second team put in a couple of hours' stiff practice on the campus yesterday afternoon, notwithstanding the slippery condition of the field, which made fast work a matter of no little difficulty. Following down, tackling and signal drill were rehearsed in turn, but only a light scrimmage was attempted.

As a result of the continual practice at tackling in the open field, which the team of late, the players are showing a slight improvement in their efforts. Fewer mistakes were made yesterday than has usually been the case. Whenever one of the tacklers commits a glaring error, however, he is required to make several attempts until a satisfactory performance is given. Failing this, a run around the track is the usual sequel. This daily grind has had a most beneficial effect on the players, as was evidenced yesterday, when several nice flying tackles were executed.

The signal practice was confined principally to drilling the linemen in bucking. McLean, who did not play in this work in the game at Kingston on Saturday, was given most of the bucking to do. This player hits the line hard, and is a useful man when three or four yards are needed. He has had considerable previous experience at Kingston, where, under the tutelage of Varsity coach, instructs the students in the rudiments of the game. Forbes was an absentee at the workout, as was also Fawcett, whose quarters at quarter-back were filled by Woods. The latter has almost completely recovered from the injury to his ankle, which put him out of the game for a few days, and will soon be in shape to stand the rigors of the game. Held down centre half during the early part of the workout, but later on gave way to McKay. Symonds, who was unable to play on Saturday because of an injured elbow, got into the game again yesterday, and showed that his injury had not caused any deterioration in his work. With these three and Rainboth in the backfield, Sinc has some good material from which to select his trio.

Due to a shortage of players on the senior line, Sinc requested Parsons and Greenwood from the intermediates to fill a couple of gaps left by Quilty and DeMuth. Greenwood made his first appearance on the campus a couple of days ago, and his work has already created a favorable impression. He has plenty of weight and tackles hard. If he can show the same ability in an actual scrimmage as he has in the lighter work, he should strengthen up the line considerably.

In the line-up which concluded the workout, the senior team was given the ball. The intermediates were consequently unable to show what they could do while on the offensive. They held the first team well, however, giving evidence of a marked improvement since the practice of last week.

## FRESHMEN OF LAW ACCEPT CHALLENGE OF THE SOPHOMORES

Rugby Challenge Accepted by  
Law Freshmen but no Date  
Has Been Set

The students of Law '17 were the recipients of a rather haughty challenge from the lofty Sophs, with respect to a football game between the two years. Immediately Messrs. Hackett and Common, with their usual alacrity, got busy and selected a team to uphold the honor of the first year.

An exceptionally hard-fought game is to be expected, for, although no practices have been held on either side as yet, the members of both teams have been faithfully drilling and studying up the rules in order that a timely argument may be indulged in over any possible point when both teams are tied out.

The select as well as selected team is as follows:

Scrimmage—Langlois, Spicer, Moigneau.  
Outside wing—Rose, Umil.  
Middle wing—Hackett, Demey.  
Outside wing—Lalonde, McNaughton.  
Quarter—Morison.  
Halves—MacDonald, Ireland, Common.  
Full—Fontaine.

The officials have not as yet been determined upon, but a settlement is soon hoped to be reached.

## CLASS OF ARTS '16 PRACTISE SIGNALS

This Year's Team Appears Even  
More Formidable Than  
the Last

Arts '16 held a signal practice on the campus yesterday morning and the light work indulged in by the men of that year is any criterion of what they can do in the interclass matches, they bid fair not only to get into the finals, as they did last season, but to carry off the coveted Wood Cup. Last year Medicine '17 succeeded in defeating the Arts team after a hard struggle, but the Arts men are stronger than ever this season and look like the pick of all the year teams seen so far. They are under the direction of "Punch" Parkinson, who, although unable to play himself, will no doubt succeed in rounding them into championship form. "Daddy" Peck will again be on the half line and Mackenzie will hold the flying wing position while the line has been considerably strengthened by the presence of "Hippo" Clarke. An effort will be made to have Harte, the Notre Dame de Grace star, turn out and if this is possible the Arts '16 aggregation should be very hard to beat.

## "Shag" Works Team Hard

Special Attention Was Paid to  
Proper Heeling out of the  
Ball

Heavy work was attempted yesterday for the first time since the Queen's game. Shaughnessy lined his men up against the second team, but owing to the absence of many of the regulars the first team did not show up very well against the intermediates. Shaughnessy kept the senior squad in possession of the ball most of the time. They practiced their plays, which are to be used on the attack. The end runs were the only ones which met with any success. The line was too much weakened by not enough men being out to prove of much good on the offensive.

Some time was devoted to the perfecting of a system of heeling out of the ball so that the opposing team could not steal it. On Saturday in the limestone City the Presbyterians managed several times in the first quarter to keep McGill from scoring, by stealing the ball when it was being heeled out, Shaughnessy spent about half an hour yesterday teaching Jimmy McGill a method of getting the ball out so that the opposing team could not jump in and get it.

Jeffrey was practicing punting, and showed marked improvement in this department of the game. He is learning to kick a spiral which has a good length. Shaughnessy took part in a punting duel with Jeff, but the big coach came off second best. Shaughnessy, however, introduced baseball tactics, and pelted something on the ball, thus making it very hard to catch.

McGill is not suffering from any lack of condition, and all that is now necessary is for the coach to see that the men do not get out of condition or go stale. A sharp run round the track before they came in after the game, was held, in order to keep their wind good. Paisley and George Laing were again absentees. The former will hardly take part in any of the workouts this week, as he does not want to take any chances with his neck, now that it is getting along so well. George was out late, and only took a run round the track to loosen up his muscles, this being his first appearance since the game last Saturday. Kennedy, Quilty, Demuth, Kelly and Pennock were also not out at yesterday's practice. This team will not get down to really hard work till the beginning of next week. Shaughnessy has now to develop some men to be used as substitutes on the first fourteen, as at the present the senior squad is made up of only one or two men more than is necessary to form a team. At present there are about three men who look as if they might, with some training, be used on the first team squad next week, and be carried as subs, when the team goes to Toronto, but as yet it is impossible to figure out who will be the men eventually chosen by the coach.

Another practice will be held to-day, at which a line-up against the intermediates will take place.

Yesterday's printed head-line which ran as follows: "Cory" Delan pressed into service. Shaughnessy's first baseman, after reading this aloud at the training table, turned to the coach and said in a very disturbed tone: "Shaughnessy, if my family see that they will take me out of college sure." However, the fans can rest easy, as "Cory" last evening wrote home explaining that he needed the exercise.

## ARTS '15 TO START SERIOUS TRAINING FOR THE CUP GAMES

Senior Class in Arts Have a Formidable Team This Year

Will the following men turn out this afternoon as soon after two o'clock as possible, to hold a signal practice of the Arts '15 Rugby team?

Upshaw, Gibb, Abbott, Rexford, Weary, Clark, Oughtred, Geo. O'Leary, O'Halloran, Johnston, Oliver, Fraser, MacDonald.

## ARTS '17 FEATURE HEAVY WING LINE

Satisfactory Workout and Signal  
Practice Held Yesterday  
Afternoon

The Arts '17 class football team had another most satisfactory workout yesterday morning, the squad being drilled through a thorough drilling of the signals and obtaining some practice in tackling and kicking.

"Tim" O'Neil, captain of the team, has succeeded in unearthing a quantity of promising material with which he hopes to defeat the Arts Freshman year to-morrow morning. The feature of the team is undoubtedly the heavy wing line which should tear holes in the opposing line. Ken Mathewson, Major, Ross Hutchinson, "Pat" Allan and Clark are all showing form, and seemed assured of places on the line, while Heron and Dunton are going well on the back division.

Another practice is scheduled to take place at nine o'clock this morning.

## RHODES SCHOLARS TO BE NOMINATED FROM MCGILL

McGill has the Privilege of Nominating a Rhodes Scholar This Year

McGill University has the privilege of nominating a Rhodes Scholar for 1915.

Applications should be sent to the Registrar from whom all information can be obtained. These applications should not be later than December 1st.

## LAING DEFINES ELIGIBLE MEN

Rugby Club Reports on Definition of Players who can Compete in Wood Cup Series

There has been of late a great deal of dispute as to who is and who is not eligible to play in the series for the Wood Cup. In a statement to the Daily last night, President Laing, of the Rugby Club, reported that the ruling was as follows: No man is eligible to play in the Wood Cup series who has played in any game or part of a game on the senior or intermediate teams. Also, no man is eligible to play who is a substitute on the senior team. President Laing states emphatically that this rule must be strictly followed.

## FIRST MEETING OF MCGILL PHYSICAL SOCIETY WAS HELD

Officers Elected After Which  
Dr. Ewe Gave an Address on  
"The Detection of a Single  
Electron."

The first meeting of the McGill Physical Society, on the session of October 13th, was held in the Physics building on October 13th. The following officers were elected:

President—Dr. H. T. Barnes.  
Vice-President—Dr. D. McIntosh.  
Secretary—Mr. A. A. Scott.  
Members of Executive Committee—Dr. A. Ewe, Dr. R. F. Raitan and Dr. C. J. Lynde.

After the business of the meeting had been dealt with, Dr. Ewe gave an address on "The Detection of a Single Electron." He first explained Rutherford's method of detecting individual alpha particles by the ionization which they produced in a vessel charged to a certain potential. This method did not give results when applied to electrons, because the apparatus was not sufficiently sensitive. Geiger, however, has recently devised a simple contrivance for this purpose, which in a modified form was then explained by the lecturer in the act of detecting electrons and alpha particles emitted by radium, radium emanation, and polonium. It also responded to the electrons scattered by lead, and aluminum. When placed in the path of the rays from the above radioactive substances, the effect was clearly shown by an ordinary electrostatic voltmeter when connected to the detector. In conclusion, Dr. Ewe showed some curves illustrating the relation between pressure and the potential of a charged point.

At the next meeting, held on October 27th, Dr. Barnes presented a paper on "The Superconducting State," which dealt with the recent work accomplished by Prof. K. Onnes, in the cryogenic laboratory at the University of Leiden, on the electrical resistance of metals near the absolute zero. He discussed sufficient quantities of liquid hydrogen and liquid helium, and an outfit of suitable apparatus. Prof. Onnes is able to perform delicate experiments at extremely low temperatures. The electrical resistance of metals is known to diminish almost linearly with temperature. It has been supposed that after passing through a low minimum value near the absolute zero, it could become infinite, that is, that the "threshold value" of the resistance would be reached. Prof. Onnes, however, found that it approaches a constant value near the absolute zero. Suspecting that this was caused by impurities in the metal, he experimented with specially prepared mercury, and found that the resistance of the pure metal was certainly less than one-twenty billionth of its resistance at zero centigrade. Lead and tin when pure behaved similarly at slightly different temperatures. When in this superconducting state, a current density of one thousand amperes per square millimeter could be passed through the metal before a difference of potential was detected at the ends. This current is a current to half a red of copper half an inch thick. The appearance of a difference of potential is a sign of the return of ordinary resistance in the wire, and the current necessary to produce it is called the "threshold value" of the current. Prof. Onnes then constructed a small coil of pure lead wire of one thousand turns and immersed it in a bath of liquid hydrogen at the same time applying a magnetic field. The induced current in the coil soon died away, owing to the ordinary small resistance of the wire. Next he lowered the temperature of the bath by replacing the hydrogen by liquid helium, and the induced current in the coil was maintained for several hours. He then removed the magnetic field, which caused an induced current to flow in the coil. By bringing a compass needle near the coil he ascertained by the deflection of the needle that a current of half an ampere was flowing in the wire. For four and a half hours, the current continued undiminished in value. That is, a current of half an ampere was flowing without E. P. in circuit of no resistance, and it lasted for four and a half hours after the impulse which started it had ceased. Physicists considered this experiment one of the most remarkable ever performed in the history of physics.

Prof. Onnes endeavored to ascertain the cause of the appearance of resistance at the threshold value of the current. He deposited a spiral of pure tin plate on a wire of German silver which does not become a superconductor, and thus found that had places in the wire are not responsible. To see if the magnetic field of the current in the wire was the cause, he placed the coil in external fields, and found that although these had to be very much larger, their effect on the resistance was similar to that caused by an increase in temperature. It appears, therefore, that the self-excited magnetic field is not sufficient to cause the appearance of a slight increase in temperature and thereby disturb the balanced state. The appearance of resistance in the wires is attributed to the disturbance of the quiescent molecules by the swiftly moving electrons at the high current density beyond the threshold value.

"The doctor says this is a case of auto induction," said a member of the audience. "There! I knew those fellows had been on a motor fag!"—Baltimore American.

## Teams To Be Examined

Dr. Harvey Will Examine Class  
Teams at the Union

Managers of Class Football teams should bear in mind that the medical examination rule applies just as much in their case as in any other form of sport.

Complete lists of the possible players on each team should be handed to the President of the Athletic Association at least one day before the game occurs.

No exceptions to the Athletic Association ruling will be made, and all men positively must be examined before participation.

Arrangements have been made with Dr. Harvey, the medical examiner, to be at the Union again to-day from 5 to 6.15, so that there will be no possible excuse for men to offer for not presenting themselves for examination.

## GRIDIRON GRIST

(By "Field Goal")

A senior rugby team, like all other perfect machines, is made up of material which has gone through a long process of development. The players who play on these senior teams are very often taught the game at the school which they attended before coming to the University. Many of the best players in the intercollegiate are graduates of the University of the Intercollegiate League. The style of play used in the former of these organizations is very similar to that in vogue in the intercollegiate and, consequently, the men have nothing to unlearn when they arrive at the University. In the intercollegiate league, in which are Lower Canada College, St. Albans, of Brockville, and Ashbury, of Ottawa, the teams are gradually adopting the style of play which is peculiar to the college gridirons. Shaughnessy has, in some measure, been responsible for this, as since he has had charge of the Lower Canada team he has worked wonders with them and this season they are practically invincible in their own class. Ashbury and St. Albans will both have to change their football tactics if they hope to be able to compete with any chance of success with the Montreal school. Consequently, this whole league will before long be using the methods of the famous McGill school. If by good fortune this does happen, the intercollegiate ought to be a good training ground for future McGill men.

The Little Big Four has had the distinction of having more big letter men graduate from it than any other similar organization. St. Andrew's, Upper Canada, T.C.S., and Ridley have all developed great rugbists, who have done well in the intercollegiate gridirons of McGill, Toronto and Queen's. The games in this league are always contested with a spirit that is of the best. The teams in the league are out to win and the support which they receive from their school is well known. All four teams have had the championship and on many occasions this honor has only been won by a point or two.

Ridley has had the advantage of having Red Griffith for their coach as he has been headmaster there for some time now. This school has turned out many famous rugbists. "Moore" Lee, the greatest of all outside wings being one of these. Cassals, who is doing such useful work on the Varsity line, is another Ridley man, while several others of less fame are also playing in senior ranks. Upper Canada has also had the honor of

## THINGS THEATRICAL

Masterful Presentation of King Lear Last Night

Last evening Montreal theatre-goers had the privilege and pleasure of enjoying the able presentation of one of Shakespeare's masterpieces, "King Lear." The basic conception and underlying motive of this play seemed peculiarly fit and appropriate for the sympathetic understanding and interpretation of Mr. Mantell. His mastery of the ideal and emotional content, and his very subtle and complete characterization of them, together with his dramatic measures as his experienced mind considered would alone produce the desired dramatic, artistic, and aesthetic effect, ensured a result which was very pleasing.

There were moments when the audience was fairly gripped with feelings most potent, as it were—into ecstatic imagination; one felt oneself moving from the present, from the sordid, from the actual, to the more distant, remote and ideal. From one's induced fancies and

## HARVARD'S RED BANNER IS SAID TO BE UNLAWFUL

Matter is to be Brought to the Attention of Students' Council

Harvard's banner—the crimson flag of her student body and her alumni—is in danger.

The full bench of the Massachusetts Supreme Court, in a decision handed down yesterday through Chief Justice Rugg, interpreting the "red flag" statute, decrees that it is illegal to carry any red emblem.

This ruling on the statute was in the appeal case of John Karvonen, found guilty in the Worcester Superior Court of having carried a red flag in a parade of Socialists in Fitchburg on November 2, 1913.

And the ruling threatens a revolution at Harvard.

SAYS RED IS RED.

Said George E. Roever, Jr., national committee man of the Socialist party

## WOOD CUP GAME AT NOON TO-DAY

Med. '18 and Med. '19 Will Be  
Opponents in First Game  
of Series To-day

At noon to-day the first game in the series for the Wood Cup will be played on the campus, Med. '18 and Med. '19 being the teams to oppose one another. The Sophs, this year have a very strong team, and have worked faithfully under Ross Fawcett and Williamson. However, Spohn, of the Freshman team, promises that his men will make their rivals go to the limit to win.

The line-up of the two teams is as follows:—

Med. '18—Mowatt, LeRoy, McMurtry, Patterson, Gresson, Pines, Lock '77, Charnell, Dowd, Sullivan, Morris, Snelzer, Tuohy, Ballentine, Taylor.

Med. '19—K. Hutchinson, Vert, Armour, Henburn, McCullough, A. McDonald, Coler, Arncliffe, Woodward, Spohn, D. McDonald, Whelan, Shaw, de Roche.

## Y. M. C. A. CANVASS HAS BEEN EXTENDED TO SATURDAY NIGHT

All the canvassers taking part in the Y.M.C.A. financial campaign who have not yet made their report should do so to-day in order that a fair idea of the results may be had. Owing to the great difficulty experienced in locating the men, the time of the canvass will be extended until Saturday night, by which time it is hoped everyone will have been approached; whether you have finished or not, at least, let us know at the Hall just how things have gone, it means only an extra minute on the way home.

# THE MILITARY HAL PENINGS AT OLD MCGILL

## LIEUT. BRUNTON NOW LECTURING

Lieut. L. S. Brunton Has Commenced a Course of Lectures on Military Field Engineering

THURSDAY AT 9, CHEMISTRY BLDG.

Hour May Be Changed to one Later in the Day if More Convenient

A course of lectures in Military Field Engineering was delivered in the Science Building last night by Major Anderson, an Ex-R.M.C. man, but this year the pressure of other duties has made it impossible for him to repeat the work, and it was feared that the course would have to be abandoned. An announcement has, however, recently been made of the appointment of Lieut. Brunton, R.G.A. ret., as lecturer for the session.

Lieut. Brunton, like Major Anderson, is a McGill Science graduate, but before coming to McGill he went through the Royal Military Academy at Woolwich, England, and was given a commission in the regular army, which he afterward resigned.

The first lecture of the course was delivered on Thursday to a class of about thirty men. The lecturer in introducing his subject discussed the composition and equipment of a modern army, and presented a summary of the appropriate personnel and equipment of the first expeditionary force sent to France.

The lectures, which form part of the regular Science curriculum in Engineering, are scheduled to be given at 9 a.m. in the Chemistry and Mining Building, but it is possible that the hour may be changed to meet the wishes of students from other faculties.

## LT. COL. DR. A. ROSS TELLS OF THE TRIP

Cruisers Accompanied Canadian Troops Over to Protect Them From German Ships

"On Board S.S. Megantic," October 12th, 1914.

"To the Editor of The Standard:

"Sir—Just a line to let you know what has been doing. We left Quebec, every ship on its own tack, and rendezvoused at Gaspe Basin, a beautiful natural port. We wakened up to find four big cruisers allied with thirty ships. The formation and sailing was started by the sailing of H.M.S. Eclipse from her anchorage, and taking her position immediately in front of our boat, the S.S. Megantic. I watched with a great deal of interest the face of our captain, Commander James, as he took his position on the bridge. His face was full of enthusiasm and pride, a correct expression of every face on board as we felt we were on our way to the front. Then followed the whole line of our boats, led by the Ruthenia. We passed out of the basin and past the light house. Then followed the second line of transports, led by H. M. S. Charlevoix, then the third line led by the flagship H. M. S. Diana, the rear guarded by H. M. S. Talbot."

"Next morning we looked out on the Canadian Armada, sailing on three parallel lines, each line led by a cruiser. It was a magnificent sight, and one not to be forgotten. Whatever the mistakes in organization, in training and in embarkation, here was a result, gladdening every Canadian eye on board, rather I might say, the eye of every Imperialist."

"AS IF NAILED TO THE SHIP." And so we sailed on, day after day. Each morning we looked on the sea, each one in the position we saw her in the night before. Then one morning we spotted smoke on our starboard side, which became known as rising from H. M. S. Glory, and each morning you may rub your eyes and look out and there is the funnels of the Glory in the very same position, apparently not one inch further away and not one inch nearer. And this continued for several days."

Then one morning an immense hull appeared on the horizon and a closer examination showed H.M.S. Princess Royal, with guns superimposed on guns. And in the lead on the horizon, another hull is barely seen, which proves to be another protector. And so our good old Motherland has been keeping up an unseen and to us unknown line of protection, as she has been doing for many, many years. A peculiar condition, showing no ship sailing to her aid but requiring her protection on the way."

WHAT CANADA SHOULD DO. "I suppose the New Zealand and Australian contingents will arrive guarded by their own warships. After this war we can bury politics and go in for something big and worthy of ourselves. As the Australian said: 'Let Canada do less talking and more work.'"

"Along with the maintenance of position has gone hard physical drill so that we land a hardened force of men. One day a big liner peeped over the horizon and saw this great fleet, turned tail and ran, belching out great clouds of smoke, indicating fear and confusion, no doubt thinking the whole fleet opposite to her had broken loose. She was pursued by one of the cruisers. I am sure that liner must have turned gray after that one short peep over the horizon. Well, good-bye for the present."

A. E. ROSS.

CLIPPINGS WILL BE WELCOME.

"P.S.—As papers do not come through so quickly, in fact, not at all, send me any clippings and as many as you can. People might do that for the boys, seeing they do not get papers. Send lots of clippings in letters. All Kingston boys are well on board."

## SCIENCE '18 ARE NOW PREPARING TO LAND THE WOOD CUP

A Call for a Practice to be Held To-day Has Been Issued

All the members of Science '18 who want to help the class along towards winning the Wood Cup are requested to send in their names for the Wood Cup in Rugby to get at 1 p.m. to-day.

## THE APPROXIMATE COMPOSITION OF FIRST EXPEDITIONARY FORCE

Complete List of Officers, Men, Guns, Machine Guns, Horses, Vehicles, Aeroplanes, and the Different Divisions of the Troops

THESE STATISTICS GIVEN OUT BY LIEUT. BRUNTON

List Subdivided Into (1) Army Troops and Staff. (2) One Cavalry Division. (3) Six Infantry Divisions. (4) Troops for Line of Communication.

A.—Army Troops and Staff. (Commander, a Field Marshal, or General). Totals—444 officers, 8,882 men, 12 guns, 14 mach. guns, 7,558 horses, 760 vehicles.

	Officers.	Men.	Guns.	Mach. guns.	Horses.	Vehicles.	planes.	hous.
Headquarters	40	150			150	20		
2 Mounted brigades	216	4,106	12 (18 pr.)	12	4,834	272		
2 Yeomanry squadrons	11	216			224	4		
1 Infantry battalion	30	992			62	16		
2 Wireless Tel. Companies	6	134			20	16		
2 Submarine Tel. Companies	14	390			294	42		
2 Land Tel. Companies	12	452			334	48		
2 Aeroplane squadrons	38	368					36	
2 Balloon Companies	20	306						12
2 Bridging trains	14	462	64 pontoons and		672	100	32 trestles.	
			superstructures					
1 Army troop transport	16	350			500	100		
2 Field ambulances	20	484			200	46		

B.—One Cavalry Division (Commander, a Lieutenant or Major-General). Totals—485 officers, 9,412 men, 24 guns, 24 mach. guns, 10,195 horses, 597 vehicles.

	Officers.	Men.	Guns.	Mach. guns.	Horses.	Vehicles.
Headquarters	31	77			60	18
1 Cavalry brigade	332	6,556		24	7,104	164
Artillery headquarters	3	15				
2 H. A. brigades	38	1,302	24 (13 pr.)		1,510	152
Engineers' headquarters	4	10			10	2
4 Field troops, engineers	12	236			300	24
1 Signal squadron	10	197			163	20
1 Cavalry train	31	197			743	165
1 Cav. Pl. Amb.	24	448			222	68

C.—Six Infantry Divisions (each commanded by a Lieutenant and Major-General). Totals—3,588 officers, 108,462 men, 456 guns, 114 machine guns, 39,966 horses, 5,268 vehicles.

	Officers.	Men.	Guns.	Mach. guns.	Horses.	Vehicles.
Headquarters	20	66			35	2
3 Infantry Brigades	372	11,364		24	301	198
Artillery headquarters	4	18			20	
3 Field Artillery Brigades	69	2,234	54 (18 pr.)		2,196	216
1 Heavy Battery	6	192	4 (60 pr.)	18 (4.5")	692	62
1 Ammunition Column	15	554			190	18
1 Engineers' Headquarters	3	9			8	2
2 Field Companies	12	422			152	26
1 Signal Company	10	157			80	12
2 Mounted Infantry Companies	13	367			344	6
1 Divisional Train	26	620			662	148
2 Field Ambulances	30	726			300	69
Total	598	18,077	58	18	24	6,161

D.—Troops for Line of Communication. Totals—800 officers, 15,000 men, 4 guns, 4 machine guns, 6,100 horses, 900 vehicles.

	Officers.	Men.	Guns.	Mach. guns.	Horses.	Vehicles.
1 Fortress Company on I. of C.	6	150			20	2
2 Infantry Battalions.	2	100			100	20
2 Telegraph Companies.	2	100			100	20
3 Railway Companies.	2	100			100	20
1 Railway Central Establishment.	2	100			100	20
2 Railway districts.	2	100			100	20
2 General hospitals.	2	100			100	20
12 Stationary hospitals.	2	100			100	20

NOTE.—The personnel and equipment for line of communication force necessarily vary with circumstances, and the above statements is only approximate, and is based on information published a year before the war began. Attention should also be called to the fact that the use of motor vehicles is increasing very rapidly; a large number of the vehicles above scheduled were motors, but under present conditions an even greater number are of this character.

Attention should be called to the fact that very large numbers of bicycles and motorcycles are in use. These are not included in the above schedule, but the total expeditionary force would probably have 1,200 bicycles and 200 motor-cycles.

GRAND TOTAL.—5,317 officers, 142,356 men, 492 guns, 186 machine guns, 63,819 horses, 7,325 vehicles, 1,200 bicycles, 200 motor-cycles.

Actual fighting portion of the force comprises 2,181 officers and 98,758 men.

To which may be added about 250 officers and 6,000 men from the army troops and lines.

The Engineers total in the front, 262 officers and 6,323 men.

The Hospitals total in the front, 224 officers and 5,288 men.

And also, both are very largely represented in the lines of communication.

## THE INTENSE HATRED OF THE ENGLISH BY GERMAN IS SHOWN IN A GERMAN POEM BY ERNEST LISSAUER

The French and Russians Are Nothing More Than Mere Obstacles in the Way of Germany's (Proposed) Cushing of the British Empire

### A CHANT OF HATE AGAINST ENGLAND.

(By Ernst Lissauer in Jugend.) (Rendered into English verse by Barbara Henderson.)

French and Russian, they matter not, A blow for a blow and a shot for a shot; We hate them not, we hate them not, We have the Weiszel and Vosges-gate.

We have but one and only hate, We love as one, we hate as one, We have one foe and one alone—ENGLAND!

He is known to you all, he is known to you all, He crouches behind the dark gray flood, Full of envy, of rage, of craft, of gall, Cut off by waves that are thicker than blood. Come let us stand at the Judgment place.

Who was this foe? They had one foe and one alone—ENGLAND!

Take you the folk of the Earth in pay, With bars of gold your ramparts lay, Bedeck the ocean with bow and how, Ye reckon well, but not well enough now.

French and Russian they matter not, A blow for a blow, a shot for a shot, We fight the battle with bronze and steel, And the time that is coming Peace will seal.

You will we hate with a lasting hate, We will never forget our hate, Hate of the head and hate of the hand, Hate of the hammer and hate of the crown.

Hate of seventy millions choking down, We love as one, we hate as one, We have one foe and one alone—ENGLAND!

Who was this foe? They had one foe and one alone—ENGLAND!

Take you the folk of the Earth in pay, With bars of gold your ramparts lay, Bedeck the ocean with bow and how, Ye reckon well, but not well enough now.

French and Russian they matter not, A blow for a blow, a shot for a shot, We fight the battle with bronze and steel, And the time that is coming Peace will seal.

You will we hate with a lasting hate, We will never forget our hate, Hate of the head and hate of the hand, Hate of the hammer and hate of the crown.

Hate of seventy millions choking down, We love as one, we hate as one, We have one foe and one alone—ENGLAND!

Who was this foe? They had one foe and one alone—ENGLAND!

Take you the folk of the Earth in pay, With bars of gold your ramparts lay, Bedeck the ocean with bow and how, Ye reckon well, but not well enough now.

## RECRUIT LIST SIXTEEN ONLY

Yesterday the Last Day on which it was Possible to Get Exemption in Arts by Joining

NO UNDERGRADS NEED SUBSCRIBE

Cost of Equipping the Regiment to be Borne Principally by the Graduates

In spite of the fact that yesterday was the last day in which it was possible for Arts men to join the regiment and obtain an exemption by doing so, the number of recruits was small. Only sixteen men signed on, which is almost as small a list as there has been since college opened this month.

It must be remembered by those who are hesitating before joining, that an undergraduate in the regiment is under no obligation to pay anything toward equipping himself, as this is being done by the graduates and by voluntary subscriptions.

Following is a list of the men who joined yesterday and the companies in which they have been placed:—

Company A.	MacKay, J.	MacKay, A. H.	Symonds, S. R.	Tomsaw, A.	White, S. B.
Company B.	Jones, T. W.	Grant, W. W.	Greyson, W. E.	Scott, H. E.	Shand, E. B.
Company C.	Hogg, W. J.	Smith, A. J.	Wright, E. S.	Wright, E. S.	Wright, E. S.
Company D.	Sheldrake, A.	Smith, L. E.			

## REVISION OF ATHLETIC CONSTITUTION

(Continued from page 2.)

servance of these club rules may lead to dismissal from the team in question.

8. No student shall be allowed to represent any athletic organization outside the University during the college season, including the Christmas holidays, unless he has first obtained the approval of the Athletic Association, and having obtained such approval, the written authorization of the Secretary of the Athletics Committee of Corporation.

Should any student take part in any athletic contest, not having been sanctioned as above, or who is not personally qualified under the regulations, such student shall be immediately debarred from participation in all University athletics, and shall be reported to the Athletics Committee of Corporation, which body shall, if it sees fit, with the approval of the Corporation, request the offender to withdraw from the University.

Article IV. Officers.

1. The Executive of the Athletic Association shall consist:—

a. Of a President who shall be elected by the members of the Association between March, and the semi-annual meeting of the Students' Council. The executive shall make at least one nomination for this office. Other nominations shall be at least twenty-five members, may be handed to the Secretary of the Association at least two weeks before the date set for election. All nominations shall be made public by the Secretary at least one week before the date of the election. Similar provisions shall govern the election of the President in case of resignation.

b. Of a Vice-President and Secretary, who shall be elected by the Executive from their own number.

c. Of the Presidents of the several clubs composing the Association.

2. The members of the Executive shall hold office until their successors are appointed.

Article V. Duties of Officers.

1. The President shall preside at all regular meetings and enforce all laws and regulations of the Association; and represent the Association in all matters of the Students' Council.

He shall order special meetings of the Association when required, on the request of the Executive, or on the written request of any 25 members of the Association, stating the reason therefor.

2. The President shall have the power to call special meetings of the Executive when required, or upon the request of any two officers or any four members of the Executive.

3. The President shall report to the Athletics Committee of Corporation on all business transacted by the Athletics Association and its Executive.

4. The Secretary shall issue all notices, keep a record of the proceedings of the Association, the proceedings of the Executive, and all other matters concerning which a record shall be deemed advisable by him or by the Executive. He shall also conduct all correspondence pertaining to his office and shall give for publication all the financial statements of the Association. He shall notify the members of the Executive of all meetings. This notification to be by mail, at least two days in advance, and for at least two days announcements of such meetings must appear in the College paper.

5. The Executive shall have the full control and management of all property and affairs of the Association, subject to the approval of the Athletics Committee of Corporation. It shall enforce the preservation of order and obedience to the Constitution, by-laws and rules of the Association as it shall deem proper.

It shall report to the Athletics Committee of Corporation, as to the nature and extent of the Association, during which, in its opinion, each club shall have the right to use the grounds.

Article VI. Fees.

1. The fee for grounds and athletics (\$3.00) constitutes the fund from which the Association is maintained, under the supervision of the Students' Council.

Article VII. Meetings.

1. The Annual Meeting of the Athletic Association shall be held during the month of March, after the election of the President.

Two weeks' notice of this meeting must be given.

2. A special meeting of the Association may be called whenever the Executive shall deem it expedient or on receipt of a written request of twenty-five members, setting forth the reason therefor.

Article VIII. Resignations.

1. In case of the resignation of the President, his successor shall be elected at a general meeting of the Association, of which two weeks' notice must be given. The provisions contained in Article IV, Sec. 1, sub. a, shall apply in this case.

2. In case of the resignation of the Vice-President or Secretary, his successor shall be elected by the members of the Executive from among their own number.

3. In the case of the resignation of any other member of the Executive, his successor shall be appointed by the body he represents.

Article IX. Amendments or Repeals.

The Constitution and By-laws may be repealed or amended only by a vote of two-thirds of those present at a meeting of the Association, provided that two weeks' notice of such amendment or repeal has been given to the Association; no such amendment or repeal shall be valid until approved of by the Athletics Committee of Corporation.

There was a good turn out at the Orchestra practice at Strathcona Hall last night. The leader, Mr. Williamson, was very optimistic over the playing, which showed that the Sunday concert to be held next month should be a decided success. All the players were in high spirits, and the intervals between the pieces played were very exciting, to say the least. Several new violin players made their appearance last night, and helped to make the practice a good one in all respects.

As there are to be Sunday concerts at least once a month, the orchestra will be getting down to hard work soon, and any student wishing to join should do so at once. Viola and string-bus players are needed the most, and the instruments will be furnished if necessary.

On the conclusion of the practice, the orchestra assembled at the Union where they treated the Sophs, and Freshies to an impromptu concert, which was much appreciated. The next meeting of the orchestra will be held at Strathcona Hall on Thursday, when a still better rehearsal is expected.

## The Saucy Arethusa Semi-ready Tailoring

The Arethusa, the ship which played so important a part in the fight off Heligoland, bears a famous name. In the great French war there was a famous frigate, "The Saucy Arethusa," which fought an action with a French vessel which was immortalized in one of Dumas' most celebrated sea-stories. The Admiralty has ordered the following verse from that song to be engraved upon a brass plate and fixed in a conspicuous place in H.M.S. Arethusa of to-day:—

Come, all ye jolly sailors bold,  
Whose hearts are cast in honour's mould,  
While English glory I unfold,  
Huzza for the Arethusa!  
Her men are staunch,  
To their fairer fate launch,  
And when the foe shall meet our fire,  
Sooner than strike we'll all expire  
On board of the Arethusa.

And, now we've driven the foe ashore  
Never to fight with Britons more,  
Let each fill his glass  
To his fairer fate;  
A health to our captain and officers  
true.

And all that belong to the jovial crew,  
On board of the Arethusa.

All the ships which took part in the action off Heligoland, are to have the words "Heligoland, August 28th, 1914," painted in gold lettering in some convenient place.

On board of the Arethusa.
